RFP-MCC-2305

Supply of One Highway Plow/Salt Truck

Addendum #3

To All Proponents of RFP-MCC-2305:

Please note: the following addendum applies to RFP-MCC-2305 and shall be taken into consideration when preparing proposal documents.

1. Specifications, Spreader Body item #35, Replace: "*Combination anti-icing and salt pre-wet system with 1000L top frame mounted brine tank, hydraulically driven brine pump, 3 nozzle pre-wet spray bar, 1 rear anti-ice boom spray bar. Include all hydraulic and brine plumbing and connections, in cab controller, switches/joysticks.*" with: "*Combination anti-icing and salt pre-wet system with minimum 600L top frame mounted brine tank, hydraulically driven brine pump, 3 nozzle pre-wet spray bar, removable rear anti-ice boom spray bar to match width of proposed truck. Include all hydraulic and brine plumbing and connections, in cab controller, switches/joysticks. Proponents are to specify a system that will work best in combination with the proposed truck. Anti-icing and pre-wet systems to be evaluated based on conformity with minimum requirements and compatibility with proposed equipment.*

2. Specifications, Spreader Body item #35 Replace: *"Bosch Rexroth Compu-Spread CS 660 Solids and Liquids Controller or equivalent* " with: "*Bosch Rexroth Compu-Spread CS 630 Solids and Liquids Controller or equivalent"*

**End of Questions.

A signed copy of each Addendum must also be included with the bid submission. Failure to include this Addendum may be cause for rejection. If you have any questions, please contact Kellie Seaman at kseaman@cumberlandcounty.ns.ca.

ALL OTHER SPECIFICATIONS, TERMS AND CONDITIONS REMAIN UNCHANGED.
