RFP-MCC-2533
Addendum #1

To All Bidders of RFP-MCC-2533:

Please note: the following addendum applies to RFP-MCC-2533 and shall be taken into consideration when preparing bid documents.

1. Has there been any lead testing done on any paint that is slated to be removed within the building?
   No, not according to our records.

2. We understand that there is power to the building, is it available for contractor use during abatement?
   Yes, the successful proponent will have access to the available power.

3. Will there be water available for use during abatement? (A hose bib will suffice)
   The successful proponent will have access to the water on site.

4. Picture 6 shows a duct running through the space, is there any equipment within the building that will need to be covered/protected during work?
   We are not aware of any equipment in this space that will be required to be covered. There may be a need to cover entry to the "light tower" to houses the light.

5. Are there any structural concerns with the building?
   Not to our information. We had commenced renovations to the building including replacing the roof when the asbestos was located.

6. Please confirm bonding requirements.
   All requirements for safety certifications, insurance, etc are listed within the RFP.

7. Page 11 in the RFP references a "New Covered Welcome/Viewing Shelter" – please confirm that this is a typo and there is no re-build in this RFP (See below)
   This is a typo. Please disregard this item.

A signed copy of each Addendum must also be included with the bid submission. Failure to include this Addendum may be cause for rejection. If you have any questions, please contact Shelby Hum at shelbyhum@cumberlandcounty.ns.ca

ALL OTHER SPECIFICATIONS, TERMS AND CONDITIONS REMAIN UNCHANGED.
