

**RFP-MCC-2608
Addendum #1**

To All Bidders of RFP-MCC-2608:

Please note: the following addendum applies to RFP-MCC-2608 and shall be taken into consideration when preparing bid documents.

Please review the following questions and answers:

1. Can the Municipality provide a copy of the Approval to Operate for review of the requirements?
Answer: A copy of the Approval will be made available.
2. Have previous reports, studies, or assessments for the Macan WWTF and collection system been developed; if so can these be shared?
Answer: Any previous studies will be made available.
3. Are record drawings/as-builts available?
Answer: Record drawings have not been located at this time.
4. Is there an existing inventory or GIS available for the collection system?
Answer: Yes. A link to the GIS map will be provided to the successful proponent.
5. Is there existing flow monitoring data for the collection system and/or treatment facility? Otherwise, is flow monitoring to be completed as part of this assignment?
Answer: Flow data at the treatment plant is included in the annual reports provided. Additional data from SCADA records can be provided to the successful proponent.
6. Is rain gauge data available for the area?
Answer: No, however, there is an Environment Canada weather station 4km north in Nappan that may have historical data available.
7. Has any prior inflow and infiltration (I&I) analysis or CCTV inspection of the system been completed?
Answer: No
8. Are there known problem areas in the system (e.g., surcharging, infiltration, blockages)?
Answer: There is typical infiltration that is expected in an older collection system, but not enough to cause flooding or bypassing at the treatment plant.
9. Has a hydraulic model of the system been developed? If so, will it be provided/if not, will the consultant be required to develop?
Answer: There is no current model. If it is not a requirement of the System Assessment Report criteria in the Approval to Operate, a hydraulic model will not be required.
10. Have there been any recent compliance exceedances or regulatory issues at the plant?
Answer: Please see WWTP Annual Reports provided.
11. Is development of cost estimates for recommended upgrades required?
Answer: No

A shared drive with the requested documentation is available for viewing. Access to the shared drive can be requested by email to: Shelby Hum shelbyhum@cumberlandcounty.ns.ca

Proposal Closing Date:

The closing date for this RFP has been extended to June 23, 2026 at 2:00 pm.

A signed copy of each Addendum must also be included with the bid submission. Failure to include this Addendum may be cause for rejection. If you have any questions, please contact Shelby Hum at shelbyhum@cumberlandcounty.nc.ca

ALL OTHER SPECIFICATIONS, TERMS AND CONDITIONS REMAIN UNCHANGED.
