MUNICIPALITY OF CUMBERLAND

UPPER NAPPAN SERVICE CENTRE
1395 BLAIR LAKE ROAD
UPPER NAPPAN, NS
B4H 3Y4

ADDENDUM No. 2

June 21, 2019

RFP-CEA-1904
SPRINGHILL GEOTHERMAL BUSINESS PARK AND DISTRICT ENERGY SYSTEM CONCEPT DESIGN

Addendum No. 2

The Cumberland Energy Authority would like to clarify the following points:

- Heating/cooling loading, infrastructure sizing, and equipment required to provide service to the types of businesses and industry identified in the Efficiency One – Springhill Geothermal Energy Use Study (Efficiency One, 2017) through a District Energy System shall be included in the design brief required in Item 2.e.i and shall be of sufficient detail to provide preliminary cost estimates, per Item 2.e.iii, of an accuracy of +/- 20%.
- The design brief prepared for Item 2.3.i shall comment on the efficiency of the technology and infrastructure recommended for the district energy system as compared to convention energy supply.
